Sunday Evening - Presentation of TRUCK, CAR and Pro UTV Class Awards

Awards for Truck, Car and Pro UTV classes will be presented at Real Inn in Tijuana at approximately 6:30 pm Sunday evening, Sept 24th! Awards will be at Real Inn and same location as Driver meeting.
3-5) **STARTING INTERVALS** - Single vehicle starts for all heats. All competitors will start at **30 second intervals.** (tentative). Please be prompt in staging to avoid late starting situation below.

3-6) **LATE STARTERS** - A competitor who is late for his assigned start time will start at the back of the class that is currently starting. The elapsed time of a late starter begins at their **DESIGNATED START TIME**, not their actual late start time. Late starters must follow SCORE official’s directions for late start procedure to avoid penalty. If SCORE officials determine it is their procedures that caused start delays, or last-minute adjustments to the start order, your time will be adjusted to when you are actually given the green flag. **Start Line will close 10 minutes after last competitor scheduled to start leaves start line.**

3-7) **HOT PITS** - There will be a designated “Hot Pit” area for use by teams ONLY during their scheduled heat. This area is not for day-long parking, but to be used by each team only during their heat race. Due to limited space, each team must vacate Hot Pit area after their heat is completed. Vehicle windshield stickers will be required for entrance to the HOT PIT area. **PIT** vehicle stickers will be issued to each team. Sticker must be affixed to outside, driver side of windshield. **You cannot enter or exit the HOT PITS while a heat race is in progress! This must be done between heats only!**

4. **Race Day Course Information & Regulations** - All times PDT

4-1) **SPECIAL RULES** - Pit crews are not permitted to access the race course to make repairs. Race vehicles incapable of moving forward under their own power are classified DNF for that specific heat. Pit or retrieval locations are the only locations where crews are permitted to access the vehicle to make repairs. A competitor can push or be towed by another competitor a maximum of 0.656 miles in a single heat.

4-2) **CHASE VEHICLES** – **NO TEAM CHASE VEHICLES WILL BE ALLOWED** anywhere on the course at any time! SCORE retrieval vehicles will do actual on-scene retrieval. If your racecar breaks, retrieval will move you to a designated location. Team can go to this designated location using access roads, and return your vehicle to your pit. If you provided your race frequency to SCORE operations, SCORE Ops can direct your team to pick-up location. You will be scored as DNF for this heat.

4-3) **PIT LANE BUFFER SPEED ZONE 25 MPH (40 kph)** - A separate pit buffer lane with 25 mph (40 kph) speed limit is located parallel to the racing surface and separated with a line of cones. This buffer zone is 50 feet wide and gives you ample room to pit safely. All pits are located on the RIGHT SIDE of the course. You may enter and leave the pit lane at any location along the cone line. You **MUST STAY TO THE RIGHT** on the course when reducing speed to enter your pit. Also **STAY TO RIGHT** when leaving the pit lane and moving back onto racing surface. **DO NOT** pull immediately over onto the racing line until you have reached race speed! If you are **NOT ENTERING** the pit lane, **STAY TO THE LEFT!** - Refer to pit diagram below:

![Typical Pit Layout](image)

4-4) **COURSE MARKINGS** – The race course is marked with orange/white ribbon, orange signs/black arrows, green wrong way markers, and mile markers **every mile.** Markings are not guaranteed to remain in place. All race teams are strongly advised to use the official GPS course file (available prior to opening of pre-run weekend). Not all dangers may be marked, and markings are there only to assist with controlled speed pre-running. Make your own course notes for race day.

4-5) **PASSING** - Drivers, if you are tapped by a competitor, move over; blocking traffic is unsportsmanlike and you may be penalized for intentional blocking.

4-6) **RADIO FREQUENCY** - SCORE will use **151.625** (Weatherman Relay) for the main race operations radio frequency. Please use this frequency to report an emergency, request assistance, report out of race status. This frequency is **TOP PRIORITY** and not to be used by any race team for general transmissions.

**IMPORTANT!** - It is your responsibility to notify the SCORE Timing trailer if you do not complete a heat. Entries that DNF heat #1 are eligible to run Heat #2.
4-7) **WEATHERMAN CHANNEL ETIQUETTE** - If you are listening to Weatherman on 151.625, please unplug your mic. If you feel it must be plugged in, be sure it is in a proper microphone hanger. There is nothing worse than a stuck mic during an emergency; someone’s life or race can be at stake. Radio checks should be done before the race. When you turn on Weatherman channel, wait and listen before you speak...there may be an emergency going on that you would be interrupting. The Weatherman can hear what you cannot hear. Just because you do not hear anything does not mean there is not a possible life and death situation going on many miles from where you are. Monitor the channel a sufficient amount of time to know you are not ‘walking’ on someone else’s emergency.

4-8) **HIGHWAY CROSSINGS** – Closed course - There are no paved road crossings at this event.

4-9) **TIME ON COURSE** – Each competitor will have a specified time from their designated start time to complete the race. All groups race three (3) 23.4 mile (37.7 km) laps per heat for total of 70.2 miles (113.1 km). Start times and duration for each heat are shown in Section 3-3 above. NOTE: When you receive the checkered flag at the timing tower, you must pull off the course to the RIGHT just past the timing trailer and proceed at reduced speed to post-race interview area.

4-10) **EXCEEDING YOUR HEAT TIME LIMIT** – Competitors who are unable to complete the heat before their race time limit expires will be flagged off course at next checkpoint and must leave course.

4-11) **HEAT TWO START POSITIONS** – Start positions for Heat #2 will be inverted from your start position in Heat #1.

4-12) **IMPORTANT - PARTICIPANT STATUS** – You are responsible to report the following:
   a. If you are unable to complete a heat you *must notify* Race Ops that you are no longer in competition in that heat.
   b. If you are not starting in Heat #2 you *must notify* SCORE Timing trailer or Christine at (702) 810-1403.

4-13) **PIT REFUELING** - Fire is always a danger during refueling. All fueling personnel should wear adequate protective clothing gear, and persons should be assigned to the specific function of manning multiple fire extinguishers in the immediate refueling area during each stop. A minimum of three (3) 20 lb. ABC rated fire extinguishers should be in each pit and ready for use at all times. Grounding the race vehicle during the refueling stop is a must. All personnel using pressure and elevated tank fueling systems are required to wear helmets, face shields and flame-resistant clothing.

5. **Checkpoints** - All times PDT

5-1) **START/FINISH AND CHECKPOINTS** - Speed limit at all checkpoints and Start/Finish Timing Loop is 15 MPH. This 15-mph zone starts 150’ before each location,

5-2) **ENTERING CHECKPOINTS** – You are required to enter the coned area at each Checkpoint and at Timing Loop area at start-finish at 15 mph in single file manner. The checkpoint corridor is a speed controlled, no passing section. Entering and exiting all checkpoints must be done in a safe and prudent manner in order to guarantee the safety of all checkpoint workers. Passing is not permitted 300 feet (90m) before each checkpoint and start-finish. Failure to exercise caution in these zones can result in a time penalty. You must observe the 15-mp speed limit 150 feet (45m) before and 100 feet (30m) after each checkpoint and start-finish area! Refer to Tijuana Desert Challenge Penalty Bulletin for additional information. Radar will be in use at checkpoints.

   ► **Failure to make a full stop will result in a 30-minute penalty for each violation!**

5-3) **CHECKPOINT LOCATIONS** - Chart below indicates checkpoint locations and total mileages for Lap 1 and Lap 2. Also, distance between checkpoints is listed. For convenience, mileages are shown in both Miles and Kilometers.

6. **Tracking and Transponders** -

6-1) **SCORE SPORT TAG TIMING TRANSPONDER** - Transponders are REQUIRED FOR THIS EVENT, and are for precise timing of all vehicles in the event. Your transponder number will be verified at race registration and you must bring the number with you or take a photo of the serial numbers on the side of the transponder so you can confirm it quickly at registration. Your race *entry will not be considered complete* until the transponder number is verified. Transponders are purchased by the team, not leased.

• You do not return the Sport Tag transponder to SCORE at the end of this event!
Racer Brief
2017 Tijuana SCORE Desert Challenge

6-2) SCORE SPORT TAG TRANSPONDER NUMBER - IMPORTANT: THE NUMBER ON THE TRANSPONDER MOUNTED ON YOUR VEHICLE MUST MATCH THE NUMBER THAT IS VERIFIED IN REGISTRATION if you want to be scored accurately! THIS IS A MUST!

The Sport Tag transponder is either blue, black or brown in color as shown at right. They can be purchased through Registration while completing your online registration, or on-site at race registration. If you purchase through Registration, you will pick up your transponder in registration at the race. The transponders are good for approximately 3 years of racing. These timing transponders are used in several other race series so you may already have one. If you already own one, be sure to include the serial number (transponder number) when completing your on-line race registration. You MUST enter your transponder number in your online or on-site registration so race timing records can be completed before the start of the race.

NOTE: You MUST have the correct transponder mounted on your vehicle prior to entering the contingency/tech line. Stop at the timing loop located on tech/contingency row for your transponder verification check. You can then proceed on into tech after your transponder reading is verified by SCORE timing personnel.

6-5) SCORE DATA RECORDERS - Data recording devices will not be used for this event.

7. Post-Race

7-1) POSTING PRELIMINARY AND OFFICIAL RESULTS – Preliminary finishing positions for each heat will be posted throughout the weekend on the SCORE timing trailer. Official finishers will also be posted in awards area approximately one hour after conclusion of the last Heat each day.

7-2) OFFICIAL RESULTS, AWARDS AND SCORING - Final class results for payout, trophy and contingency purposes will be based on total accumulated elapsed time for both heats. You MUST complete all your required laps within the time limit to receive finishing points and qualify for awards. Each heat is scored based on completed laps only. This means if your elapsed time is over the time limit, your last lap will NOT be counted and you will be scored as a DNF. The Driver or Rider of Record MUST start or finish the race in either Heat 1 or Heat 2 to receive points.

A Driver or Rider finishing within their race time limit (refer to the Racer Brief or Schedule of Events on the SCORE website) but who exceeds the time limit when penalties are added will be assigned a DNF and will receive start and placement points only but no finishing points. A competitor who is disqualified will receive zero points.

Placement points within class for non-finishers (DNF’s) will be based on completed laps and last checkpoint cleared in your heat. If there is a tie of the total accumulated elapsed time, both teams will receive the same number of placement points.

Note: Race teams not completing all three (3) laps will be identified on the Official Results as a DNF. The order your team is listed on the results will not represent the placement points you will receive. Placement points for DNF’s will be based on the elapsed time through the timing loop for complete laps, plus data from checkpoint logs giving you credit for checkpoints cleared on your incomplete lap. You must complete ALL LAPS both days to receive finish points.

7-3) PROTESTS – To protest another competitor, you must submit a detailed written protest to SCORE. The written protest must be filed within 15 minutes after the last scheduled finish of the final competitor in your class after each heat.

Example: Race Limit 2 Hrs. - Your start time 1:07pm + 2 1/2 Hrs. = 3:07pm max. finish = Deadline to file protest is 3:22pm

The written protest must be delivered in person to Race Director Jose A. Grijalva. SCORE will consult with the Competition Review Board, and the matter will be heard as soon as practical.

To file a technical protest, you must present a written protest within 30 minutes after the end of your heat each day. For technical protests, a $500 cash fee is required to accompany the protest. Deliver protest to SCORE Race Director Jose Grijalva. Protest Forms are available from Race Director and at Timing Trailer or Cruz Roja Command Center.

7-4) REQUEST FOR “GOOD SAMARITAN” TIME CREDIT - If you stop to assist another racer who is in need of immediate medical assistance, or possibly a life or death situation, you may be eligible for a time credit for the time you are stopped. The written request for time credit must be delivered by you, or a member of your team, to either Race Director Jose A. Grijalva or the SCORE Timing trailer within 15 minutes after the finish of your heat each day. Request forms are available from the Cruz Roja Command Center, the SCORE Timing Trailer, Race Director Jose A. Grijalva or Asst. Race Dir. Christine Wait.

7-5) AWARDS CEREMONY for FRIDAY Heat Races - Awards for these classes will be presented at the Real Inn in Tijuana beginning at 8:30 pm Friday evening. You must arrange to have your trophy accepted by someone else if you are not going to attend. No trophies can be brought back across the border by SCORE International.

7-6) AWARDS CEREMONY for SATURDAY / SUNDAY Heat Races - Awards for truck, car and Pro UTV classes competing in Saturday and Sunday heats will be presented at Real Inn in Tijuana beginning at 6:30 pm Sunday evening. If not attending, arrange to have someone to accept your trophy. No trophies can be brought back across the border by SCORE.
8. Media Coverage of the Tijuana Race

8-1) LIVE VEHICLE TRACKING – Live tracking will not be used for this short-course event.

8-2) NATIONAL TV SHOW – Be sure to have in-car cameras and if possible, one with intercom audio. Optimal location is to have one facing forward from behind the driver with intercom audio, a second camera facing forward and a third camera facing back. Put your team name, # and sponsors stickers within view of the camera shots. Put two cameras in car within reach of co-driver for cleaning. At the finish line there will be SCORE techs downloading camera cards. It takes about 60 minutes to download. Your cards will be returned with the footage intact on them. Helicopters will be shooting the race for television. The Tijuana Desert Challenge will have a one-hour broadcast on CBS Sports Network, and will play worldwide after the USA, US Territories and Canada broadcasts. Check SCORE website and local listings for dates and air times.
