

Returning to the United States Via the Mexicali West Medical Lane Revised 9.11.20

To ensure vehicles utilizing the Mexicali West Medical Lane do not have a problem that would block the lane, it has been determined that only passenger vehicles (cars/trucks) without trailers and non-commercial vehicles will be permitted to enter the U.S. via this lane. There is a concern that if just one vehicle were to enter and have a problem with the size of the rig vs. the size capability of the lane it would delay all other vehicles for a substantial period of time.

Race teams who register up to five (5) vehicles with SCORE by the **deadline, Thursday, September 17th at 5pm** will be issued passes for the Medical Tourism Lane from 9:00 pm Saturday September 26th to 12:00 noon Sunday September 27th. All persons in the vehicle must be U.S. citizens. Persons eligible for passes are: Driver of Record, Rider of Record, Co-drivers, Co-Riders, Navigators, and Chase Team personnel.

Each team should determine how you can best use the five (5) passes and select one person to collect the information needed and submit the request starting on Saturday, September 12th at 10:00am.

To register for passes by the 5:00pm **September 17th** deadline, go to the SCORE Website, select Race Info, and then select the Baja 500 logo. From the list of items that display, select the item "Apply for Medical Tourism Lane Passes". You will be connected to the registration system. Select the box labeled US Border Crossing Pass Application. If you already have a login select Login to existing Account otherwise select Register for an Account.

Either select a participant from the list displayed or select New Participant and you can register yourself as a participant. Then answer all the questions for each of the passes you are requesting. Save the request at the end. If you do not save the information, it will not be received by SCORE..

For each vehicle you are requesting a pass, you will need Driver/Rider of Record name, number of vehicle/moto/quad entered in race, who will be the driver of the returning vehicle, cell phone number, email address, year, manufacture make and model, license plate number and the state issuing the plate. Answer all questions accurately. If the information you provide does not match the vehicle information entering the U.S., you will not be permitted to use the special lane when you reach the border.

No changes, substitutions, or additions can be accepted after 5:00pm deadline on September 17th.

For questions regarding the Medical Tourism Lane passes, contact 702-407-3059 or email Christine@score-international.com. Registration office **will not** be able to assist you with passes.

During on-site registration, Drivers/Riders of Record or Team Managers will be provided the exclusive Medical Lane Passes and instructions on how to get to the Medical Tourism Lane. The team is responsible for distribution of their passes. Due to COVID-19 Protocols, **DO NOT** send multiple individuals to on-site registration just to pick up Medical Tourism Lane passes.

These passes are different than the vehicle parking passes issued for access to the controlled access areas at race site. **DO NOT** try to use the medical lane with the event vehicle parking pass.
