

Racer Bulletin #3

2021 San Felipe 250

Due to the large number of entries in the San Felipe 250, ANUBE is introducing a new process for completing their lease agreement form. The form is now available online and by completing it and bringing a digital or printed copy of the receipt to Tech you will reduce the amount of time it takes on Friday to get through the Anube area. If the person bringing the vehicle through Tech is not the person who completes the form, make sure you provide them with a copy or digital image of your receipt.

There are two links available, one in English and a separate one for Spanish. Make sure you complete this online process prior to entering Tech line on Friday, April 16th. If you have not registered with SCORE go ahead and complete the Anube form.

The form does require credit card information but nothing will be charged to your card. This is solely for the purpose of charging you if the two units are not returned by April 26th.

While you are in the Anube area, you will pay the required \$40 insurance fee so bring cash or pesos with you in the exact amount.

Anube and SCORE Tech will be located at the Eldorado Pavilion grounds near the interview ramp on Thursday, April 15th. Teams may pick up your Anube devices and SCORE Tech will be doing fire suit, helmet checks, and chassis inspections at this location.

For those who would like to pick up Anube devices on Wednesday, use WhatsApp and call +34 653133156 to speak with César. Tech is available for Chassis inspection on Wednesday by appointment, call 619-572-8245.

Be sure and watch the video available online for the operation of the Stella units and review the Racer Brief regarding Good Samaritan credits. They are not automatic... you must complete a form requesting a credit and the Race Director will determine if and how much of a time credit might be allowed.
