

CRITICAL INFORMATION

PLEASE READ IMMEDIATELY !!

Special Stipulations for Crossover between Hwy 1, Coco's Corner and Gonzaga Bay

Unless it is absolutely necessary for a team to chase through this section we strongly advise against it.

The crossover road between Highway 1 through Coco's corner to Gonzaga Bay is a **live race course** and will be open only for chase crews with **"numbered chase trucks without trailers"**. Only trucks capable of getting off the race course when race traffic is coming are allowed.

All chase vehicles must pull over "early" for race traffic. This is **One-way traffic only with flow of race traffic**. All chase trucks must stay to the far right side of the race course at all times while driving on this section of the race course. Local police will be stopping all traffic from going south from Gonzaga Bay.

Any racer having trouble with a chase truck not moving off the road or blocking, needs to get the chase numbers and license plate of chase vehicle that is causing the problem, and relay the information to the Weatherman.

Also please turn in that information at the finish line to Jose Grijalva, Dick Gray, or Roger Norman. Chase teams need to be 100% vigilant at all times, and run at a speed that is not causing so much dust that they cannot see race traffic coming up on them.

Any chase crews chasing across this section do so at their own risk.

Please... **Be Safe at All Times!**
